Unlock the Rainforest

A 'Let's Read Together!' Book

We used the magic book to take us to the rainforest. We were unlucky to land with a thud on the ground. There were massive roots growing from a tree.

We were surprised to see Ben. He had come with us! Kit put Ben on his lead as he did not want Ben to be unsafe.

Ben noticed a stunning bird with a long, bright beak. After that, we thought we could hear water and we found a river.

As we got closer to the river, we could see a little boat in the water. There were two men standing and a lady sat down. They must have lived in the rainforest.

There was a loud sound from the trees. We froze and felt unsafe but Ben was completely unafraid. Quickly, we went on through the forest.

Kit pointed out a sloth. The sloth looked asleep, upside down in a tree. We did not want to wake the sloth in case it was unsafe.
